STATEMENT:
I respectfully request your support as your District O Senator. I bring a team with the right experience and conservative philosophy to help move our Senate forward. It’s time to ensure that Alaska’s future returns to the land of promise and opportunity most of us knew in our youth. Alaska’s essential industries are dependent upon the continuation of responsible resource development, which require the removal of obstacles effectively discouraging economic development.

Effective government depends upon an exchange of talent and new ideas. I believe that my record, my respect for our constitution, and my philosophy about government makes me the best choice as your next Senator.

I believe that serving is a privilege and not a career and that elected officials must represent the wishes of their constituents. I believe it is my responsibility to help keep government from intruding in your lives. I also believe that elected officials should “have your back” and remain available year-round to help constituents.

I understand that I will not change the world overnight, but was raised with a philosophy of personal responsibility and high expectations. One is not born a statesman, but can become one with a solid foundation, a desire for what’s best for Alaskans and a humble fear of his/her creator.

I believe the best lies before us and believe very much in the great State of Alaska. I believe I am the best choice to represent the people of District O and I respectfully ask for your support. Thank you.
